TO: All Employees

FROM: 429/Safety Manager, Head, Safety Engineering Branch,  
SSQRD

SUBJECT: Pedestrian Safety (LMI 1700.7)

Pedestrian safety in crosswalks has recently received considerable notice. LaRC policy on this issue is provided in LMI 1700.7, "Traffic Safety Program," page 4, as presented below:

Responsibility

Action

Pedestrians

- Cross streets at designated crosswalks exercising extreme caution at corners.
- Look both ways before entering crosswalks to make sure there is sufficient time to walk across the street.
- Do not step in front of an oncoming vehicle assuming the vehicle will stop.

Note: Pedestrians have the right of way in crosswalks after they stop, look, and enter with sufficient time to safely cross the streets.

Your continued adherence to this vital safety program element is appreciated.
